DETAILED ACTION

This Office action is in response to applicant's amendment filed on 04 April 2005, which has been entered.

Allowable Subject Matter

1. Claims 11-12, 16-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 - Claims 11-12, 16-19, 24-26 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method of manufacturing a semiconductor device that includes an ion implantation step of either implanting nitrogen ions into sidewalls of gate structures or implanting oxygen or argon ions into portions of exposed substrate between the gate structures, combined with a subsequent thermal processing step to form a liner layer on the sidewalls and on the exposed substrate, wherein the thickness of the liner layer on the sidewalls is less than the thickness of the liner layer on the exposed substrate; and

- Claims 20-23 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method of manufacturing a semiconductor device that includes an ion implantation step of implanting ions into portions of exposed substrate between gate structures, combined with a subsequent thermal processing step to form a liner layer on sidewalls of the gate structures and on the exposed substrate, wherein the thickness of the liner layer on the sidewalls is less than the thickness of the liner layer on the exposed substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen W. Smoot whose telephone number is 571-272-1698. The examiner can normally be reached on M-F (8:00 am to 4:30 pm).
